Manual Hog Ring Type SR8

Description:

The SR8 hog ring is a very popular hog ring that is used primarily in the nursery and erosion control industries. It is manufactured out of a variety of high quality wire types and then taped together with high strength polyester tape. It features sharp tips to promote good piercing capabilities and consistent ring closure profiles. It is also available with blunt tips to promote safety.

Popular applications:

B&B Trees, Tagging, Silt Fence, Bird Control, Netting Installation, Bag Closure, Lobster Pots

Open:	11/16" Crown (0.6875" / 17.46mm)
Closed:	9/32" Diameter (0.281" / 7.14mm)
Wire:	16 gauge (0.0600" / 1.52mm)
